

This is a long-term player development program, designed to provide guidance for golf and personal skills. These sessions meet twice per week and run for the respective time. It is not required to attend every class, but it is encouraged to receive the full benefits. We will be covering all aspects of the game throughout the month with skill testing the final week. Our goal for the junior is to develop and graduate to the next level. These are the Levels we will be offering this summer. As the students excel and grow with the game there will be additional levels added.

FUNdamentals - Focuses on Grip, Stance, Balance and Swing.

Learn to Play - Develop fundamentals and golf skill training.

Train to Play - Refine fundamentals and organize practice.
